

Cooperation Agreement

between

Asia Pacific Center for Theoretical Physics

San 31 Hyoja-dong, Nam-gu, Pohang, Geongbuk 790-784, Korea

and

European Centre for Theoretical Studies in Nuclear Physics and Related Areas (ECT*)

Strada delle Tabarelle 286, 38123 Villazzano (Trento), Italy

In order to foster scientific exchange and to pursue collaborations in theoretical physics between the Asia Pacific Center for Theoretical Physics (APCTP) and the European Centre for Theoretical Studies in Nuclear Physics and Related Areas (ECT*), the two institutions agree upon the following program based on mutual equality and reciprocity of benefits:

1. The two institutions will seek further opportunities to cooperate in scientific research. The research projects will be defined by mutual agreement of both institutions. The form of cooperation will vary and will be adjusted according to the goals and needs of the joint projects.
2. The two institutions agree to promote the exchange of scientists. To this end, when either of the two institutions invites members of the other institution to participate in scientific exchange and joint research activities, the host institution will normally provide accomodation and cover the living expenses of the visiting scientists, in a form to be defined in each instance, according to the rules and guidelines of the host institutions.
3. The agreement may be modified by mutual consent. This Agreement will become effective upon the date of signature by the Directors of the two institutions for an initial period of three years. It will automatically be extended for an additional period of three years at each expiration date unless either party gives six months advance notice in writing to terminate the Agreement.
4. Each institution shall designate a person or office to serve as liaison for implementing this Cooperation Agreement.

Prof. Han-Yong Choi
Executive Director
APCTP
