The International Symposium on Cosmology and Particle Astrophysics 2024 (CosPA 2024) will be hosted by Ningbo University from June 14-18, 2024. The conference venue is at Intercontinental Ningbo.

The purpose of the conference is to bring together theorists, experimentalists and observers working in the fields of gravitation, particle physics, cosmology, astrophysics and astroparticle physics, to discuss the latest observations, theoretical results, and upcoming prospects for progress. The topics include: Classical and Quantum Theories of Gravity, Cosmology, Radio Astronomy, Gravitational Waves, Dark Matter, Neutrino Physics and Relativistic Astrophysics.

The International Symposium on Cosmology and Particle Astrophysics is a series of conferences organized in Asia Pacific region annually as an activity of Asia Pacific Organization of Cosmology and Particle Astrophysics (APCosPA).

CosPA 2024 is supported by Ningbo University, Ningbo Association for Science and Technology, Institute of Theoretical Physics, Chinese Academy of Sciences, Hangzhou Institute for Advanced Study, University of Chinese Academy of Sciences and Asia Pacific Center for Theoretical Physics. There will be several best presentation awards to students and Postdocs from Pauchy Hwang's scholarship.
