

Agreement for Cooperation between
the Asia Pacific Center for Theoretical Physics (APCTP)
and
the International Union of Pure and Applied Physics (IUPAP)
on behalf of the Working Group on Women in Physics (ICWIP)

The Asia Pacific Center for Theoretical Physics, Pohang, Korea and the International Union of Pure and Applied Physics (IUPAP) have agreed upon the following four items based on principles of mutual equality and reciprocity of benefits in order to foster academic and scientific exchange.

1. The two bodies/parties will collaborate in developing financial plans to co-sponsor conferences and/or workshops focusing on women in physics, to be held at sites in either IUPAP Countries or the Asian Pacific Rim, as mutually agreed by both institutions. The terms of sponsorship of these conferences and/or workshops are to be agreed upon by both institutions.
2. The two bodies/parties agree to promote the exchange of scientists, thus helping to advance the training of young scientists, both men and women, in particular from developing countries and especially the least developed of them.
3. Each body/party will designate a liaison officer to administer this Agreement and to coordinate cooperative activities between the two institutions.
4. This Agreement may be modified by mutual consent. The Agreement will take effect on the date of signing the Agreement and will last for a period of three years. At that time, the terms of the Agreement will be reviewed and upon the mutual consent of both bodies/parties, it will be renewed for a subsequent period, to be agreed upon at that time.

Date: November 14, 2013

A handwritten signature in blue ink that reads "Cecilia Jarlskog". The signature is fluid and cursive, with the first name being more prominent.

Cecilia Jarlskog
President
Int'l Union of Pure & Applied Physics
