8. The venue

It would be most convenient to take Subway Line 2 or Line 7, if you approach the venue on foot using public transportations. Thus, the following pictures and legends are for those who arrive at the Konkuk University subway station.

Once you take off at the Konkuk University subway station, please approach Exit 2 to go down the stairs to the ground.

You have to cross the road to get into the campus and go straight forward, passing the University hospital. And the venue is there, overlooking the elevated subway line on your right.

It might be said that you should feel something is wrong if you walk more than 10 minutes.

The green line is the elevated subway Line 2, and the thick green square is the Konkuk University subway station complex. The red square is the venue.

A view of the venue (in the circle) if you are waiting for the pedestrian signal to cross the road.

When you walk a few minutes, the venue would become more clearer.

The entrance would not so difficult to locate. You should approach the entrance through the piloti. Once inside the building, the Hall is just in front of you. Please note that these pictures have been taken at different seasons of the year.
